## Experience

Stratio - LinkSquare  
Co-founder and CEO  
January 2013 - Present (7 years 10 months)  
1863 Concourse Dr. San Jose CA 95131

Stratio, Inc. was founded in 2013 as the culmination of a decade of work done at Stanford University and has received National Science Foundation (NSF) funding for its core technology, a low-cost germaniumbased shortwave infrared (SWIR) image sensor. Stratio's goal is to make SWIR imaging available to the mass market for the first time in history, revolutionizing the SWIR sensing field and opening up many new high volume applications. Our technical team includes Ph.D.'s with expertise in IC design, optical systems, and semiconductor manufacturing. We have our headquarters in San Jose, and we also have a branch office in Seoul, South Korea. You can learn more about us at: <http://www.stratiotechnology.com/>
